ALUMINUM OUTDOOR RECREATIONAL TRAILERS

BUILT FOR ADVENTURE. /

NEW

The "KL" is the perfect trailer for the silent sports enthusiast. This product has been designed to carry a large variety of recreational products such as kayaks, SUPs, surfboards, sailboards, canoes, bikes, storage boxes, coolers and other equipment. Use this trailer for your passion today and what you grow to love tomorrow.

Accessories*

Arms engineered to work with most direct bolt on and wide bar clamp systems including those from Yakima®, Thule®, Malone® and Hobie®.

Light Weight

The base unit weighs in just over 170 lbs, easy to maneuver and tow behind small vehicles.

Loading

Lower height means less lifting compared to a roof mounted rack system. Mast is 40" tall from bottom arm.

Grow

Add optional mast system to increase what you haul. Cushioned arms can be secured at different heights.

Low Profile

For great aerodynamics and better gas mileage.

Bearing

Bearing lube grease system for long bearing life.

Axle

Leaf spring axle with galvanized beam.

Removable

Tongue is removable with a split wire harness. Masts and arms can be broken down for compact storage.

Lights

Sealed lights on entire trailer including high visibility LED bullet markers.

KL BASE PLUS SINGLE MAST KIT 18582 WITH PAIR OF EXTRA ARMS 18599

Shown with optional tongue jack
