

**ATV'S, UTV'S, UTILITY
LOADS, AUTOMOBILES,
MOTORCYCLES, &
MUCH MORE**

KNOW IT. OWN IT. HAUL IT.

STANDARD FEATURES:

The following standard features represent major basic traits found in Triton's ATV and Utility Trailer models. Since the start, Triton has always placed quality and innovation in every model. These details is what sets Triton apart from the rest.

Four cord rubber torsion axles for a smooth cushioned ride and independent suspension keeping your loads secure and safe.

All aluminum frame using custom integrated aluminum extrusions that provide function, durability, rigidity, and a clean professional look for years to come.

Snapper pin for coupler latch to safely keep the latch secured in place.

Safety chains with spring loaded clips to keep them securely on the hitch.

USE THESE ICONS FOR THE **SUGGESTED IDEAL USE** FOR EACH TRAILER. MOST MODELS CAN HANDLE OTHER LOADS OR A COMBINATION.

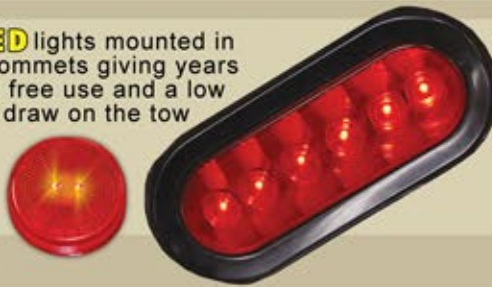

Integrated grease system built into every hub for excellent grease flow past both bearings promoting long bearing life. Easy to grease too.

Molded wire harness for long life and years of durability. There are no splices or wire connectors to fail that can cost you time and money down the road.

Models with plywood decks have high quality fully treated marine grade plywood that comes with a limited lifetime warranty for extended years of outdoor use.

Sealed LED lights mounted in rubber grommets giving years of trouble free use and a low electrical draw on the tow vehicle.

-  ATVs, ALL-TERRAIN VEHICLES
-  UTV, SIDE-BY-SIDE OR SPORT/UTILITY VEHICLES
-  GENERAL UTILITY LAWN AND GARDEN
-  MOTORCYCLES FROM TOURING TO DIRT BIKES
-  RIDING MOWERS TO LANDSCAPING EQUIP.
-  TRACTORS AND ATTACHMENTS OR HEAVIER UTILITY
-  AUTOMOBILES AND LARGER VEHICLES OR EQUIPMENT

PLEASE NOTE: MAKE SURE THAT THE TRAILER HAS THE CARRYING CAPACITY AND DECK SPACE FOR YOUR SPECIFIC LOADS

ATV SERIES

The ATV Series is a versatile trailer line up initially designed for side loading ATVs. The versatility of this style of trailer has also proved to be a fine fit for the very popular UTV and side by side vehicles. Accessories can add security to loading, reduce hauling damage, and increase what else you want to haul.

FULL LINE OF ACCESSORIES AVAILABLE

STANDARD TIEDOWNS ADJUST THE FULL LENGTH OF THE DECK

STANDARD ALUMINUM RAMP CAN BE USED ON BOTH SIDES AND REAR

ATV88
79"x104" 2 place side loading ATV trailer, shown with optional #08544 Front Rail Kit, #01145 Tongue Jack, #08519 Spare Tire Carrier, and #02435 8" Spare Tire.

ATV SERIES

<CONTINUED>

ATV SERIES STANDARD FEATURES:

79" wide deck is narrow enough to see around, yet wide enough for the wheel bases of large ATV's and rear loaded UTV's (use optional side saddle kit)

Side rails with 1/4" carriage bolt channels run the full deck length allowing #08660 tiedowns to be fully adjustable to properly secure all your loads. (2 per machine, extra available)

Aluminum loading ramp for rear and side loading of machines is a durable light weight ramp that stores in the rear of the trailer, and out of the way of your loads.

Ramp Clamp system holds and secures the loading ramp under the deck and dampens the rattling effect of lesser designs. Locks with the provided padlock.

Tongue jack standard on the ATV128, ATV128-2, and ATV168 models.

ATV128 79"x 152" 3 place side loading, single axle ATV trailer, shown with optional #08544 Front Rail Kit, #11055 Alum. Dia. Plate Stoneguard, #01145 Tongue Jack, #02464 Spare Tire Bracket, and #07355 10" Spare Tire.

ATV128-2 79"x 152" 3 place side loading, tandem axle ATV trailer, shown with optional #08544 Front Rail Kit, #11055 Alum. Dia. Plate Stoneguard, #01145 Tongue Jack, #02464 Spare Tire Bracket, and #03165 10" Spare Tire.

ATV168 79"x 200" 4 place side loading, tandem axle ATV trailer shown with optional Electric Brakes.

ATV SERIES ACCESSORIES:

Side Saddle Kit #12910:

This kit permits the ramp to be hooked onto the rear pockets sideways to allow wider machines like UTV's to be easily loaded.

Front Rail Kit #08544:

A convenient heavy duty aluminum rail kit that mounts to the front deck and provides you a safety catch when rear loading.

Aluminum Diamond Plate Stone Guard #11055:

This stone guard mounts easily to the front rail kit providing protection from debris on the road.

Stake Pocket Kit #08535:

This kit comes with 8 stake pockets that fit 2x4's into. You will be able to build your own sides to haul other utility loads that are loose and/or need more containment. Can be mounted to be out of the way of regular ramp use.

ATV Tiedowns #08660: Rock solid tiedowns that mount into the adjustable 1/4" channel in the side rails of the ATV Series. Two per machine come standard on the ATV series and extra tiedown kits are available, 2 per kit.

ATV-TR SERIES

The ATV-TR Series is a new breed of an ATV/UTV trailer lineup. The ATV-TR Series comes standard with twin aluminum loading ramps allowing you to adjust for the wheel base of any ATV or UTV you own. Innovative accessories add even more versatility to this trailer line up.

ATV-TR SERIES STANDARD FEATURES:

All aluminum framing with custom aluminum extrusions for excellent rigidity and long durable life.

Twin aluminum loading ramps for side and rear loading. Ramps can adjust for wheel width on the side and rear where they are used on the frame.

Two tiedowns per machine mounted in the side rail channels for complete adjustability and strength.

Molded wire harness and sealed lights for protection from the elements for longer life and less failures.

Smooth riding torsion axles with built-in bearing lube system for superior bearing life.

Limited lifetime warranty on the marine grade plywood deck.

Snap pins for both ramps for secure and safe hauling.

ADJUSTED FOR UTV'S

ADJUSTED FOR ATV'S

ATV-TR SERIES ACCESSORIES:

ATV Tiedowns #08660: Extra tiedown kits are available, 2 per kit.

Front Rail Kit #08544: Provides you a safety catch when loading.

Stake Pocket Kit #08535: This kit has 8 stake pockets. Can be installed to not interfere with ramp use.

Alum. Dia. Plate Stone Guard #11055: Mounts to the front rail kit.

GU SERIES

The GU Series is a multi-use trailer line up with 8' and 10' decks. These trailers are light weight alternatives for your general utility hauling needs like lawn mowers, an ATV and gear, and/or loads for outdoor/seasonal projects.

GU SERIES STANDARD FEATURES:

Low profile deck and dropped tongue for excellent low loading angle and easy hauling.

Tilt deck with front tensioner system to take out all the slack between the deck and tongue to lessen the rattling and tilt pin hole damage.

Four D-ring tiedowns are mounted standard in the corners of the deck for securing your loads.
(for extra tiedowns see page 15)

Plastic molded fenders with frame supported side steps for style and durability.

GU SERIES ACCESSORIES:

Rail Kit: The aluminum Rail Kit provides you a nice aluminum rail on three sides of your trailer. You can use straps or bungee cords to better secure loads.
#06711- GU8, #06712- GU10

Box Side Kit: This kit provides complete containment of your loads and offers excellent durability with the stylish look of aluminum diamond plate sides.
#13640- GU8, #13660- GU10

Box Side Kit required to use Stackable Ramps

Stackable Ramp Kit: Both light weight aluminum ramps slide into the rear of the Box Side Kit doubling as an endgate.
#13650- GU8, #13670- GU10

Bi-Fold Ramp Kit: This bi-fold aluminum ramp gives you a low profile presence on the road for less wind drag and better gas mileage. Fits with other optional side and rail kits.
#13740- GU8, #13750- GU10

GU8
53"X96" tilt bed utility trailer

GU10
64"X120" tilt bed utility trailer with optional ramp

DIVERSE MODELS THAT WILL FIT MANY SPECIFIC LIGHT DUTY HAULING NEEDS

Side Kit: This aluminum Side Kit that provides nice containment of your loose loads and more places to use your bungee cords and light straps.
#11928- GU8
#11930- GU10

Endgate Kit: The Endgate Kit will finish off the rear of the side kit shown (above) to have all four sides enclosed. This kit slides into channels and rests on the rear edge of the deck.
#11938- GU8, #11940- GU10

Tall Ramp Kit: This traditional straight ramp can be used alone or with other optional kits like the Box Side Kit, as shown right. This is a welded aluminum ramp that is strong and dependable for years of reliable service.
#13720- GU8, #13730- GU10

XTV SERIES

The XTV Series can be a diverse trailer that is also a good starter trailer for those requiring utility needs with an aluminum trailer. A great choice for hauling an ATV, a lawn mower, and for general utility loads around the yard.

XTV SERIES STANDARD FEATURES:

Heavy-duty spring axles with Bearing Lube system for ease on maintenance and positive packing of both bearings and the hub.

Tilting deck that is secured by a tilt pin with snapper pin connected by a lanyard.

Aluminum tiedown tabs welded to the frame for safe and secure tiedown positions.

Gray plastic molded fenders.

XTV SERIES ACCESSORIES:

Solid Side Kit #11390: Aluminum sides with top lip for strength. The **#11711 Solid Endgate Kit** (below) is also available which closes off the back of the box.

XTV
48"X96" tilt bed utility trailer, shown with optional #07102 Front Rail Kit and #06509 12" Tire Upgrade

OUTFIT THE XTV TO BETTER FIT YOUR HAULING NEEDS WITH QUALITY ACCESSORIES

XTV SERIES ACCESSORIES:

Shown Above, is the optional #07122 Ramp Kit, #07102 Front Rail Kit, #08519 Spare Tire Carrier, #06509 12" Spare Tire, #01145 Tongue Jack, and 12" Tire Upgrade.

AUT SERIES

The AUT Series has a versatile trailer line that has models for hauling your yard waste up to heavier vehicles and equipment. For work or play the AUT Series selection has the variety to fit your hauling needs.

AUT SERIES STANDARD FEATURES:

Aluminum extruded decks that lock together and are welded to the frame for superior strength and durability.

AUT models 53" and 64" wide have 1/4" carriage bolt channels built-in running the full length of the deck and side rails for tiedowns and accessory uses. Only the AUT1464's have the 3/8" carriage bolt channels.

Four adjustable D-ring tiedowns (right) come standard in the 1/4" carriage bolt channel. (extra kits #09529, 2 pr/kit)

Smaller AUT trailers have a dropped tongue allowing for a low deck height and lower ramp angle.

AUT1464's and AUT1064HD trailers shown below have strong A-frame tongues for higher GVWR ratings.

ALL AUT MODELS COME STANDARD WITH AN ALUMINUM RAMP. TRAILER MODELS WITH A "B" HAVE A BI-FOLD RAMP AND OTHER MODELS WILL HAVE A REGULAR TALL RAMP.

(14' AUT trailers below come only with bi-fold ramps)

BOTH MODELS BELOW COME WITH 6 TIEDOWNS ON THE DECK & 8 TIEDOWNS ON THE SIDE RAILS

AUT1464

64"x 168" utility single axle trailer with std. bi-fold ramp, shown w/optional #12404 Front Rail Kit and #12750 Side Rail Kit

AUT1464-2

64"x 168" utility tandem axle trailer with std. bi-fold ramp, shown with optional #12685 Side Kit

AUT853

53"x96" utility trailer with std. full ramp, shown with optional #11104 Wheel Chock Kit, #12403 Front Rail Kit, #12413 Stoneguard Kit, and Aluminum rims.

AUT853B COMES WITH BI-FOLD RAMP

AUT864

64"x 96" utility trailer with std. full ramp, shown with optional #01145 Tongue Jack, #12270 Solid Side Kit, #12390 Solid Endgate Kit, and Aluminum rims.

AUT864B COMES WITH BI-FOLD RAMP

AUT1064B

64"x 120" utility trailer with std. bi-fold ramp, shown with optional Aluminum rims

AUT1064 COMES WITH REGULAR RAMP

All the same AUT features with more hauling power & a strong A-frame tongue

AUT1064HD

64"x 120" utility trailer with std. full ramp, shown with optional #13501 Tongue Jack

AUT1064HD-B COMES WITH BI-FOLD RAMP

AUT SERIES

<CONTINUED>

The larger AUT Series provides for more alternative and heavier loads to be hauled. Also, these AUT models and accessories available will give you a number of ways to custom fit the trailers to your hauling needs.

AUT SERIES STANDARD FEATURES:

Aluminum extruded decks that lock together and are welded to the frame for superior strength and durability.

AUT 82" wide models have several full length 3/8" carriage channels in the deck and side rails. Also present are Quickslide™ channels in the deck for tie-down and accessory uses.

AUT 82" wide trailers come with Triton exclusive aluminum tiedowns in the deck and side rails that use the 3/8" carriage bolt channels. Each tiedown has a slot for s-hook use and can also double as stake pockets. (right, extra kits #11242, 2 pr/kit)

Larger AUT trailers have an A-frame tongue design for added support, weight distribution and strength for those larger loads

ALL AUT MODELS COME STANDARD WITH AN ALUMINUM RAMP. TRAILER MODELS WITH A "B" HAVE A BI-FOLD RAMP AND OTHER MODELS WILL HAVE A REGULAR TALL RAMP.

(14' & 16' AUT trailers below come only with bi-fold ramps)

3/8" CARRIAGE BOLT CHANNELS

QUICKSLIDE™ CHANNELS

AUT1682

82"x 192" utility tandem axle trailer with std. HD bi-fold ramp and electric brakes (one axle), shown with optional #13517 Side Kit

AUT1082

82"x 120" utility trailer with std. full ramp, shown with optional #12852 Side Kit

AUT1082B COMES WITH BI-FOLD RAMP

10' AND 12' MODELS COME WITH 4 TIEDOWNS ON THE DECK & 4 TIEDOWNS ON THE SIDE RAILS

AUT1282

82"x 144" utility trailer with Std. full ramp, shown with optional #12402 Front Rail Kit, #12834 Side Rail Kit, #12412 Stoneguard Kit, and Aluminum Rim Upgrade

AUT1282B COMES WITH BI-FOLD RAMP

AUT1282-2B

82"x 144" utility trailer with std. bi-fold ramp, shown with optional #12402 Front Rail Kit, #12834 Side Rail Kit and #12412 Stoneguard Kit

AUT1282-2 COMES WITH FULL RAMP

14' AND 16' MODELS COME WITH 6 TIEDOWNS ON THE DECK & 8 TIEDOWNS ON THE SIDE RAILS

AUT1482

82"x 168" utility trailer with std. HD bi-fold ramp, shown with optional Aluminum Rim Upgrade

AUT1482-2

82"x 168" utility trailer with std. HD bi-fold ramp and electric brakes (one axle)

AUT SERIES

AUT SERIES ACCESSORIES:

Side Kit: A quality option for keeping everything in while you are towing and to carry more loose items.

Side Rail Kits & Front Rail Kits: These aluminum kits offer more security to your trailer by helping you when you are loading and to contain your loads on the deck. Tall (shown) and short kits are available. (not available on all models, tall and short kits do not mix)

Aluminum Diamond Plate Stone Guard Kit: This is a very stylish and useful kit that attaches to the front rail kit for extra protection from road debris.

Add-A-Plank Kit: The gaps on the standard side kit (shown left, top) can be lessened or can be completely closed off (shown left, bottom) using the add-a-plank kits. One kit will make smaller gaps and two kits will make the sides solid on the trailer for the most completely contained loads.

Wheel Chock Kits: For motorcycles, the wheel chock(s) are a must have addition to AUT trailers and uses the different channels found on the AUT models.

Solid Endgate Kit: Close off the rear of the aluminum solid side kit, slides into the rear of the solid side kit and rests on the deck once it is in place.

Short Side Kit: This kit has two aluminum sides that is used on the AUT series 82" wide trailers and the Stoneguard Ramp Kit. One side has two sections, and one lifts up to side load an ATV. **#16340** 12' Short Side Kit, **#16330** 14' Short Side Kit, **#16320** 16' Short Side Kit

Solid Side Kit: Keep everything in with the aluminum solid side kit. A great way to keep loose loads safe and contained. (shown with opt. Endgate Kit, above)

3/8" Tiedown Kit: For AUT series trailers with 3/8" carriage bolt channels. **#11242** (2 pr/kit).

D-ring Tiedown Kit: For AUT series trailers with 1/4" carriage bolt channels. **#09529** (2 pr/kit).

#16060 AUT Stoneguard Ramp Kit: This dual purpose kit works on 82" wide AUT trailer models. This kit has two aluminum ramps for side loading but when stored they serve as a stone guard. For use on: AUT1282 (single axle), AUT1482's and the AUT1682.

ACCESSORY PART NUMBER CHART:

APT SERIES

The APT (all purpose) trailers are another innovative option from Triton in the utility trailer lineup offering popular planked decking and heavy duty carrying capacity for their size. This versatile trailer series are made to last and take the abuse.

APT SERIES STANDARD FEATURES:

Aluminum extruded frame, A-frame tongue, and deck for superior strength and stability

Welded Aluminum Side Kit with aluminum rails on top providing for containment and for securing items and/or tarps with bungee's

Six aluminum tiedowns come with the built-in aluminum carriage bolt channels in the aluminum side rails and rear cross member for full length adjustability

Rubber grommet mounted low amp LED lights on entire trailer.

Comes with 15" tires (aluminum rims optional)

Wood planked deck with durable Red Pine Select quality 5/4 wood planks (shown right)

1000# swivel wheel tongue jack standard

Two S-hook slots punched in the front cross member for tiedown S-hooks

APT SERIES ACCESSORIES:

APT's Endgate Kit #15293: slips right into the existing aluminum side kit on the trailers. This provides a sturdy wood wall to contain your loads with a 1" thick fully treated marine grade plywood board for many years of use.

Aluminum Diamond Plate Storage Box: #05031-1 (LEFT) and the #15331-1 (RIGHT) comes with a keyed lid latch and mounting hardware. Store your straps and other gear separately.

Spare Tire Carrier Kit #15430: A great position for a spare tire on APT models. The kit comes with a pin that is lockable with an optional padlock.

UT SERIES

UT SERIES ACCESSORIES:

UT Side Kit: This all aluminum kit mounts easily and has three sides to provide you with additional containment of all your loads. (optional endgate shown)

- #11610- UT8
- #11620- UT10
- #11600- UT12's
- #11630- UT16's

Short Endgate Kit: UT8 & UT10 #07072 UT12 thru UT16-7 #07073: The short endgate kit will make that transition from ground to deck easier on a UT tilt trailer and works on all UT trailers to provide a small back gate to secure loads.

Endgate Kit: The aluminum Endgate Kit closes off the back of the side kit for full containment.

- #11750- UT8/UT10
- #11760- UT12 to UT16-7

Aluminum Ramp Kit: Sturdy and light weight extruded aluminum ramps for loading what your UT Series trailer can carry. Heavy Duty ramp for UT16-7 has extra support legs that stabilize the rear of the trailer.

- #07060- UT8/UT10
- #06908- UT12's/UT16
- #07091- UT16-7

OPTIONAL TIEDOWN PICTURES AND PART NUMBERS ARE ON PAGE 15 FOR UT MODELS

NEW AUT 72" WIDE

The 72" wide AUT trailers are another excellent version of the already popular AUT Series. These trailers are a great fit for UTV and side-by-side vehicles. ATV users will also like this trailer to fit their ATV's and gear or any other material that needs hauling.

CH SERIES

Triton's car hauler/utility trailer line up, the CH Series, is a champion of open trailers that has standard features just not found on others in the market today. Well thought out designs and quality components all provide the most value you can find anywhere.

CH SERIES STANDARD FEATURES:

Two heavy duty aluminum ramps for rear and side loading; comes with front storage rack which is lockable with an optional padlock.

Frame includes an aluminum extruded deck which includes two full deck length 3/8" carriage channels and three Quikslide™ channels for tiedown and accessory uses.

Four heavy duty D-ring tiedowns are mounted in the adjustable 3/8" carriage bolt channels in the deck. (5,000# rating per D-ring)

Aluminum diamond plate fenders; the driver's side is removable.

Dual rear stabilizer jack stands to give you rock solid loading, both store out of the way in the frame.

Electric drum brakes are standard on both axles.

Quality 2,000# tongue jack with skid plate. (electric jack optional)

CH18
102"X18' Car Hauler/Utility

CH20
102"X20' Car Hauler/Utility shown with optional #09611 15" Alum. Spare Tire, #15430 Spare Tire Carrier, and Alum. Rim Upgrade

CH22
102"X22' Car Hauler/Utility shown with optional #13450 Alum. Dia. Plate Box, #15430 Spare Tires Carrier, #09611 15" Alum. Rim Spare Tire, Alum. Rim Upgrade and #13630 Hauler Power Jack Kit

MORE THAN YOUR TYPICAL CAR HAULER

USE THE STANDARD RAMPS TO SIDE LOAD MACHINES LIKE ATV'S AND THEN LOAD EVERYTHING ELSE FROM THE REAR

HIGH QUALITY & VALUE IS HAULING WITH CONFIDENCE

EHHD SERIES

Triton's heavy duty equipment hauler trailers, the EHHD Series, is a great choice for hauling vehicles and equipment. The EHHD aluminum models have some of the same standard features as the CH Series plus more muscle built-in for securely hauling those heavier loads and vehicles safely.

EHHD SERIES STANDARD FEATURES:

Aluminum extruded deck with built-in tiedown channels for tiedowns and other accessories.

Heavy duty bi-fold aluminum loading ramp with support legs for rock solid stable loading.

Large tongue jack with plate and 5000# capacity.

Tandem axle 12" electric drum brakes
Heavy Duty GVWR of 9,995#

EHHD20
102"X20' Car Hauler/Utility trailer shown with optional #14640 Bulkhead Rack Kit

#17070
HD Spare Tire Carrier (for 6 bolt rims)

Also available, EHHD18 & EHHD22

CH & EHHD SERIES

CH & EHHD SERIES ACCESSORIES:

Aluminum Diamond Plate Storage Box #13450: This aluminum storage box fits neatly into the A-frame of the tongue. Great for storing straps and 12V battery for other options. Latch with keyed lock to secure the contents.

Electric Winch Kit #13570: A 3700# rated electric winch that can be mounted in any Quickslide™ channel. (winch has a 43' wire cable) Electric winch kit comes with a 12' remote control with toggle switch.

Optional Wireless Control #13733

Electric Tongue Jack Kit #13630: Easily lift and lower your tongue jack. Includes foot plate and manual crank handle. A 12 volt battery, battery tray, and storage box, sold separately.

Wheel Chock Kit #11116: This wheel chock kit mounts into the Quickslide™ channels easily. Two kits are installed in the picture.

Hauler HD Jack Kit #14637: This HD jack has a long stroke and high capacity to handle those large loads and tongue weights. Comes with a large removable sand plate to prevent penetrating the ground.

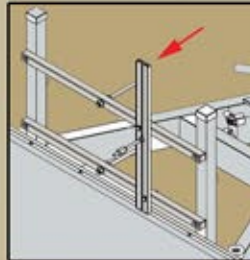

Wheel Stop Kit #13666: Consistent position every time you load & comes with tiedown holes. (pr)

Padlock #03164: For securing the aluminum ramps to the trailer for added security.

CH Side Kit : This aluminum side kit helps to contain loose loads up front.
CH18: #14160
CH20: #14170
CH22: #14180

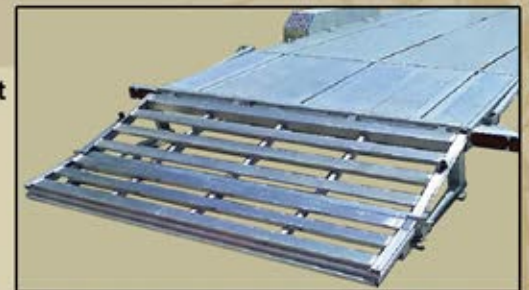

CH Spare Tire Carrier #15452: This simple kit attaches to the brace behind the ramps in front.

Hauler Tire Rack #13949: This aluminum tire rack holds your spare racing tires up and out of the way of the vehicles being hauled. Bolts to 3/8" channels in the deck.

Hauler Bi-fold Ramp Kit #13950: A heavy duty bi-fold aluminum ramp with support legs for stable loading and unloading all of the equipment and vehicles being hauled. A standard on EHHD models.

#11830-1 UT Spare Tire Kit: This durable aluminum spare tire kit mounts to the side rail or A-frame part of the tongue.

Bulkhead Rack Kit #14640: This nice aluminum kit gets mounted in the front of the EHHD models providing a safety stop when loading the vehicles being hauled. This kit is only for the EHHD models.

GENERAL ACCESSORIES

Winch Mount Kit #04315: Makes bringing on all those "dead weight" loads easier; stand, winch, and mounting hardware standard.

Spare Tire Hub Kit: This kit gives you a spare tire mount plus a hub that is loaded with the bearings, seals and dust cover.

#15313-116: For trailers with a 1 1/16" spindle
#15313-138: For trailers with a 1 3/8" spindle

Spare Tire Carrier #08519: Nice space saver on the tongue when used with a tongue jack. (#01145 tongue jack and spare tire extra)

SEE YOUR TRITON DEALER FOR DETAILS ON SPARE TIRE OPTIONS

Spare Tire Bracket #02464: A simple and lockable spare tire holder. (padlock opt.)

UT Spare Tire Kit #11830: This is a side rail mounted kit for an out of the way spare tire option.

EXTRA TIEDOWNS ARE A GREAT WAY TO ADD MORE SECURITY TO YOUR SPECIFIC LOADS
